“Machines will do what machines can do”  
Give your child the advantage in the fast changing, machine-driven workforce of the future!

Through MiniChess, your child will develop critical cognitive skills needed for the 21st Century

- Things machines cannot do!

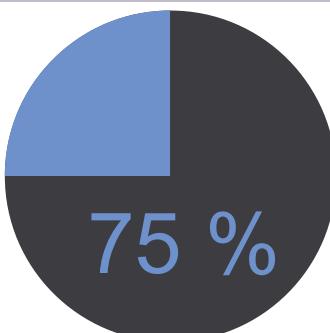

MiniChess teaches skills that are not in the current school curriculum, filling a skills gap needed to be relevant in modern times.

The World Economic Forum predicts that countries **Economical Success** in the 21st Century will be greatly impacted by

- o Cognitive capacity
- o Creativity attributes

It is estimated that there is a major global SKILLS-gap:

- o 40 Million+ unfilled high-skilled jobs
- o 45 Million+ unfilled medium-skilled jobs
- o a Surplus of 95 Million low-skilled workers (unemployable)

Global research indicates that **75%** of the fastest growing occupations now require STEM-skills

Critical thinking, invention, and innovation are undeniably essential to the economic survival of countries and individuals. These elements fuel growth, adaptability, and resilience in an increasingly complex and interconnected world

# Why MiniChess is More Than a Game

## Your child will be **ONE STEP AHEAD:**

-  **Cognitive development:** Improves critical thinking, problem-solving, and STEM abilities.
-  **Life skills:** Enhances creativity, teamwork, and decision-making.
-  **Academic boost:** Develops reading, writing, and mathematical skills.
-  **Social growth:** Teaches collaboration and boosts confidence.

## Building Young Minds Through **PLAY**

### MiniChess uses **ACTION-based Teaching Methodologies:**

Making use of all 7 learning styles, ensuring your child gets taught in the way that *their brain* learns best!

### Your Child will receive hands-on, interactive lessons with specialised MiniChess Teachers:

-  **Supportive Environment:** MiniChess teachers foster a positive and encouraging atmosphere that boosts confidence and curiosity.
-  **Creative, effective & Neuro-based Teaching Methods:** Teachers use storytelling, role-playing, and visual aids to make learning enjoyable and memorable.
-  **Interactive Activities:** Action-based lessons include fun games, puzzles, and hands-on tasks to keep children fully involved.
-  **Personalized Attention:** Teachers adapt lessons to suit each child's learning pace and needs.
-  **SACE Accreditation:** Lessons are facilitated by professionals trained in accredited educational techniques. Schools and teachers claim SACE points
-  **Continuous Feedback:** Regular updates on progress help children stay motivated and parents informed.

# THE WAY FORWARD

**PLAY** is a **Neutral, Fun and Engaging** platform for **learning**

Critical SKILLS your child will benefit from

- Value-based decision making
- Creative problem solving
- Entrepreneurial thinking
- Social and emotional SKILLS
- Creativity

Emotional intelligence  
Language-expressive skills  
Higher-order thinking  
Introduction to Coding  
Many more critical STEM-skills
